

Managing Users

 The ability to update and remove a user's profile picture is available in FileCloud Server version 18.2 and later.

Administrators can use this section to manage FileCloud users.

What do you want to do?

	 Create a new User
	 Import a user from AD or LDAP Service  Bulk import of FileCloud Users from AD Server
	 Bulk creation of FileCloud users from CSV File
	 Listing FileCloud Users  Viewing User Properties  Change a User's Email Address  Manage a User's Profile Picture
	 Resetting a User Password  Password Settings
	 Setting a User Account to Expire  Disable a FileCloud User Account  Deleting a FileCloud User
