CodeLathe is proud to announce the release of FileCloud Server 21.2

→ 21.2 Release Notes → Windows Upgrade

→ Upgrade to 21.2 → Linux Upgrade

Documentation in PDF format

21.2 Known Issues

MacDrive does not mount on Apple silicon Macs (M1) with macOS Monterey; this issue will be resolved in the FileCloud 21.3 release (Dec 2021).

What's New?

FileCloud Server 21.2 Release!

- The new Workflow Automation feature enables end-users to automate processes.
- Integration with MS Teams enables users to share and download FileCloud files in Teams.
- The new Compliance Center for ITAR makes it easier to stay compliant.
- A Desktop Edit client enables users to seamlessly edit files in their native applications.
- Online onboarding features make it easy to learn how to use FileCloud Online.
- Users now have the ability to create and share with their own user groups.
- Users can now Web edit files in OnlyOffice.
- The DLP interface includes a rule expression builder.
- A standalone file browser lets users access FileCloud content in an explorer-like interface.

New to FileCloud?

FileCloud allows you to deploy your enterprise file sharing and sync solution at a pace that is right for you.

CodeLathe also provides mobile and synchronization tools to help you build the solution that meets your unique requirements.
