

# Add a Hard Drive to TonidoPlug2's NAS Enclosure

In addition to supporting USB storage devices, TonidoPlug2 has an NAS enclosure that houses a 2.5" SATA laptop hard drive.

1. Grab the ridges on both sides of the enclosure's cover with your thumbs. Push the cover forward to open it.
2. Place your hard disk in the enclosure with its label facing up. Pull the hard disk up very gently get it properly seated.
3. Put the enclosure cover back on.

Note: You don't need to press or hold a button to open the enclosure's cover.
