

Activating TonidoPro

Tonido Desktop Upgrades (Pro & Biz)

Tonido Desktop Pro is an subscription service that upgrades and unlocks additional features not available in the free edition of Tonido Desktop. To compare the features included in the free edition of Tonido, TonidoPro and Tonido Biz visit <http://tonido.com/tonidopro.html>.

Installation

1. Create a Store user account in the Tonido Store (<https://store.tonido.com>) and Buy Tonido Desktop Pro (or Biz) from the [Tonido Store](#).
2. Log in to your Tonido device. Go to **Tools Settings** and then click **Check for Updates** to make sure you have the latest version of Tonido software.
3. Click **Applications** on the left side of the screen. Go to **Upgrades** Tab.

The screenshot shows the Tonido Desktop interface. On the left is a sidebar with navigation options: Files, Music Player, Recent, Favorites, Shared Files, Synced Files, Applications (highlighted), and Settings. Below Applications, there is a box listing features like iPad support, Video Streaming, Music Playlists, and much more. At the top right, there is an 'Account' dropdown menu. The main content area has tabs for 'Manage', 'Install', and 'Upgrades' (which is active). The 'Upgrades' section is titled 'Upgrade Get more features' and includes a sub-header 'To get more advanced features, buy a Upgrade from our [online store](#) , then setup your online store account to activate the upgrade.' Below this, there are two upgrade options: 'Upgrade to Pro' and 'Upgrade to Biz'. Each option lists features and has a 'Buy' button. The 'Upgrade to Pro' features include: All free features, Guest Accounts can upload, Up to 100 GB sync folder, Map as network drive, and Advanced Sharing. The 'Upgrade to Biz' features include: All Pro features, Up to 200 GB sync folder, Setup your own domain, Use your own SSL Certificates, and Advanced Branding. Below the upgrade options, there is a section titled 'Store Configure store account'. It shows 'Tonido Store Account: Not Set' and two buttons: 'Set Tonido Store Account' (highlighted with an orange arrow) and 'Clear Tonido Store Account'.

4. Enter the Store user account from (1) and set store account details.

5. If you have purchased Tonido Pro or Tonido Biz, the TonidoPro activation button will appear. Click **Activate** button to activate TonidoPro.

Tonido Pro
Valid Till: 2013-12-25
Upgrade needs to be Activated. Click the Activate button to activate

Purchased Purchased upgrades

Upgrade	Expiry
Tonido Pro	2013-12-25

6. Log out (**Tonido Log Out**) and then log back in. TonidoPro is now activated.
7. After activation, you might want to install WebsharePro to get the upgraded Webshare features

Installing WebsharePro

Note: TonidoPlug users don't need to install WebsharePro since it's already included in the TonidoPlug edition of Tonido.

Once you have activated TonidoPro:

1. Click **Applications** on the left side of the screen.
2. Open the **Install** tab. Click **Install** next to **WebsharePro's** entry. (Mac OSX: If you have a problem installing WebsharePro Application, make sure to stop Tonido, move the Tonido app outside "**Applications**" and to your Desktop. Restart it, do the installation and then move it back into "Applications".)
3. After successful installation, switch to the Manage tab, click WebsharePro's entry and click on "Resume" to enable it.

The screenshot shows the Tonido web interface. In the top right, there is an 'Account' dropdown. Below the navigation sidebar, the 'Apps' section is active, displaying 'Manage installed applications'. A table lists the following applications:

Application Name	Launch
Explorer	[Launch Icon]
Search	[Launch Icon]
Sync	[Launch Icon]
Webshare	[Launch Icon]
WebsharePro (Suspended)	[Launch Icon]

A context menu for 'WebsharePro' is open, showing the following details:

- WebsharePro** v9.62.0.21836
- Share your files via My Shared Files
- Paid
- CodeLathe [website](#)
- APP ACTIONS**
 - Suspend
 - Resume
 - Remove

- 4.
5. You will want to disable "Webshare" application by clicking on it and selecting **"Suspend"**.
6. Next Remove the "Webshare" application by clicking on it and selecting **"Remove"**
7. Recreate new shares and you will be able to use the upgraded WebsharePro features.

For Tonido Biz Customers : Continue instructions on [Customizing and Setting up SSL](#).

Troubleshooting Activation

- Make sure the store credentials are entered exactly what you have in the Tonido store account. If you changed the password on the Tonido store, make sure you re-enter the credentials.
- **Mac OSX:** If you have a problem activating TonidoPro, make sure to stop Tonido, move the Tonido app outside **"Applications"** and to your Desktop. Restart it, do the activation and then move it back into "Applications".
