

# Create a new Tonido Account

To create a new Tonido account on your device because you want to use a different name, first Login to your existing account,

## 1) Settings->Network->Web Settings

Enable the "Allow Remote Admin, New Account Creation and Remote Deletion" checkbox.

The screenshot shows the Tonido web interface. On the left is a sidebar with navigation options: Files, Music Player, Recent, Favorites, Shared Files, Synced Files, Applications, and Settings. The 'Settings' section is expanded, showing a promotional box for 'TonidoBiz: Unlimited Guests and Shares, Custom Branding, Own Domain and more' and an 'Upgrade to Pro' button. The main content area has tabs for General, Account, Network, Misc, Log, and About. The 'Network' tab is active, showing 'Relay Settings' with an 'Enable Relay' checkbox. Below that is the 'Web Settings' section, titled 'Configure Server'. It contains three checkboxes: 'Enable Remote Web Access' (checked), 'Allow Remote Admin, New Account Creation and Remote Deletion' (checked and highlighted with a grey background), and 'Enable SSL without using Relay (Biz only)' (unchecked). An orange arrow points down to the second checkbox. Below the checkboxes is an 'HTTP Port' field with the value '10001'.

## 2) Settings->Account->Switch to a Different Account.

The screenshot shows the 'Account' settings page, titled 'Switch to a different account'. Below the title is a paragraph: 'Change the account you are currently logged in by switching to a different account or by creating a new account.' At the bottom left, there is a blue link labeled 'Switch Account' with an orange arrow pointing to it from the right.

## 3) After logging out, you can create a new account
