

20.1 Sync Restrict Download Options

Note

Download Limit Restrictions is

- Applicable only for files which are publicly shared
- Not applicable for folders
- Not applicable for files which are privately shared

Set Restrict Downloads

Clicking on the “Advanced Options”, Manage Share dialog appears.

To restrict the number of downloads,

- Click on “Restrict to” which appears under “Restrict Downloads”.
- Set Download limit restrictions in the textbox that appears below “Restrict to”.
- Click on “Update”

By doing this, your file is restricted to download only a certain number of times.
