

20.1 Edit a Sync File

You can quickly open a file for editing from the Sync folder.

To edit a file:

1. Launch FileCloud Sync by right-clicking on the icon in your system tray, and then selecting File Browser.
2. A File Browser window opens, displaying the contents synchronized with FileCloud Server.
3. Double-click a file to open the file for editing.
4. Make changes and then click Save.
5. Your changes will get uploaded to the server automatically.
