

Uploading files or folders to the wiki

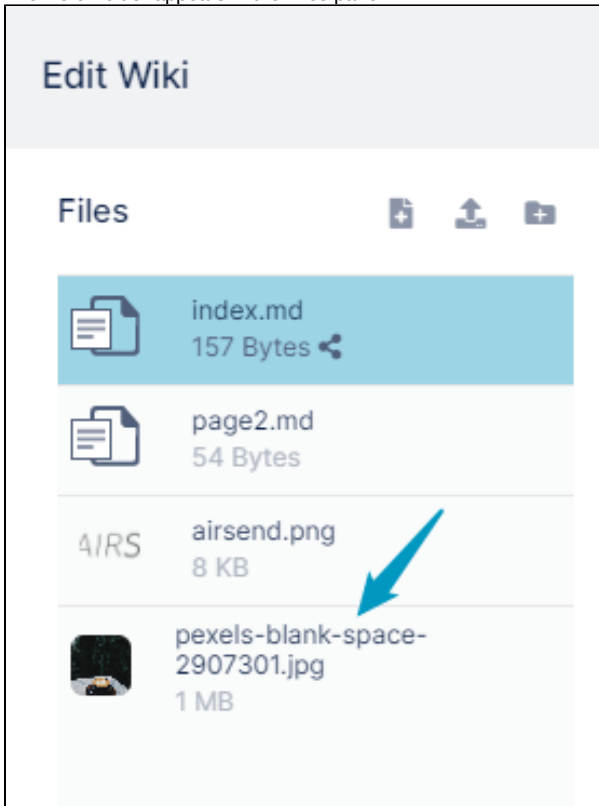

To insert an image or file link into a page in a wiki, you must first upload the file or image to the wiki. You can also upload a folder and its contents to the wiki.

To upload a file or folder into the wiki:

1. [Open the wiki editor](#)
2. Drag and drop a file or folder onto the Files panel, or click the **Upload a file** button and upload a file or folder.

The file or folder appears in the Files panel:

To add an uploaded image file to a page in the wiki, see [Adding an image to a wiki page](#).

To add a link to an uploaded file to a page in the wiki, see [Adding a link to a file in a wiki page](#).
