

Managing Favorites

Favorite Lists

Tonido allows you to create lists of files or folders that are combined together for quick access.

To view your favorite lists, click on "Favorites" on the left navigation menu. The right content will display the list of favorites. You can create a new favorite list by clicking on "New Favorite List".

The screenshot shows the Tonido web interface. At the top left is the Tonido logo. In the top right corner, there is an "Account" button with a user icon and a dropdown arrow. On the left side, there is a navigation menu with the following items: "Files", "Music Player", "Recent", "Favorites" (which is highlighted with a star icon), "Shared Files", "Media Files", "Applications" (with a dropdown arrow), and "Settings". Below the navigation menu, there is a box that says "TonidoPro: Unlimited Guests and Shares, Guest Upload and more". The main content area on the right is titled "Favorites List". At the top of this area, there is a button labeled "New Favorite List" with a plus icon. Below this, there is a table with the heading "Favorites". The table contains three rows, each representing a favorite list: "Default", "Locations", and "pics". Each row has a blue folder icon to its left.

To view the list of items in a Favorite List, click on a favorite list and you will see a list of files or folders that are part of the favorite list. You can add new favorite files or folders to the list by selecting the "Add Favorite" button.
