

# How to find my TonidoPlug's MAC address

## Problem

When you are trying to find the IP address of your plug by visiting [www.tonidoplug.com/ip](http://www.tonidoplug.com/ip) site, you might need to enter your plug's MAC address for certain cases. You are not sure about this MAC address.

## Resolution

Your TonidoPlug's MAC address will be printed on the TonidoPlug under barcode (e.g 01:50:42:01:a8:25).

Here is a sample image of TonidoPlug's label displaying a barcode.
